

AIAA GHS Field Trip to Southern Museum of Flight

By Tracie Prater

Nine members of the AIAA Greater Huntsville Section toured the Southern Museum of Flight in Birmingham, AL on Saturday, July 23rd. This museum is one of the largest aviation museums in the southeast, with 75,000 square feet of space and around 100 aircraft on display. Museum highlights include Korean war jets, the Tuskegee Airmen exhibit, a portion of a recovered B-25 bomber, Vietnam War helicopters, crop dusters, and an A-12 Blackbird. AIAA GHS looks forward to coordinating more field trips to locations in our section territory this year.
